ALBION

FRAME CONSTRUCTION

The Albion range utilises the inherent flexibility of a telescopic beam system to enable the construction of a multitude of layouts and configurations, from workstations to meeting room tables, using the minimum number of stock components possible.

Albion can be fitted with fixed or sliding top bridges, and provides excellent cable management when utilising the optional large capacity drop down cable tray and central mass cable riser.

All Desking is 740mm high with 25mm thick top, featuring a 60 x 40mm solid steel tube profile with 15mm floating gap.

ACCESSORIES

The Albion system is a fully resolved system, capable of being assembled in a vast range of configurations, and is available with an extensive range of smart accessories. These include a selection of cable management, screens, return beam kits and power & data.

Mix

All MFC tops are 25mm thick as standard, unless otherwise specified.
For contrasting edge details, add the corresponding code after the MFC finish code – e.g.: *MFC/WH(BLK)*
Other colours are available on request (P.O.A).

Alongside the flexibility of our Albion system, we are also able to provide a wide range of fully bespoke table tops to fit a variety of different looks, requirements and budgets. Some of the finishes available include:

- MFC
- Formica Laminate
- Forbo Linoleum
- Veneer
- Nanotech Laminate
- Solid Wood
- Distressed Wood

Featuring a variety of edge details and cable access solutions, there is very little we can't achieve. We have a wealth of samples available to view in our London showroom. Please contact us to arrange a visit. You are most welcome to use our space for meetings with clients and designers to discuss any projects you have.

general care

TOP SURFACE

Laminates

For general routine cleaning, wipe the top surface by applying a mild non abrasive soap solution using a soft lint free cloth. Then rinse clean with a damp lint free cloth and dry thoroughly.

More stubborn stains including oil, varnish or paint may be removed when rubbed with methylated or white spirits. Then rinse tops clean with a damp lint free cloth and dry thoroughly.

Furniture polishes should not be used, they can result in the build up of wax or silicone on the surface leaving smears.

Wood Finishes

The fine finish applied during manufacture is a hard protective lacquer resistant to moderate heat and spillages of some beverages, but not alcohol. All spillages should be wiped off immediately with a slightly damp cloth to avoid any permanent staining.

For general routine cleaning simply dust and wipe your veneered surfaces with a soft, damp lint free cloth and dry immediately using a soft clean cloth. Always wipe veneered surfaces in the direction of the wood grain.

We strongly advise against the use of wax or spray polish on lacquered veneered surfaces, as a build up of polish will eventually damage the finish and cause unsightly patches.

More stubborn stains can generally be removed by applying a mild, lukewarm non abrasive soap solution using a soft lint free cloth, gently rubbing over the stain working up a thin lather. Take great care not to apply too much liquid and remember to always rub in the direction of the wood grain and dry immediately using a clean soft cloth.

The shade and grain of wood veneers vary, this is not a fault but just part of the appeal and beauty of natural wood veneers.

FRAME

Albion frameworks are considered to be maintenance free, however the following should be observed during the frames lifetime: Where cleaning of the frame is required a mild detergent solution should be used. The use of harsh abrasives, acids, alkalis or bleaching products is not recommended. Following these simple maintenance procedures will enable trouble free use of the frame.

CABLE MANAGEMENT

Ensure no liquid is allowed to access the power modules, should this happen isolate from the electrical supply immediately and consult a qualified electrician.

To minimise the risk of damage please take some simple precautions...

- Use coasters under glasses and hot mugs.
- Don't place potted plants on a veneered surface unless kept in a watertight container and take extreme care when watering.
- Veneer is susceptible to bruising and scratching so use protective pads under any equipment.
- Sunlight can damage veneer surfaces so avoid over exposure to direct sunlight. Fit blinds where necessary to diffuse the light.
- Avoid exposure to excessive heat from a fire, radiator or local high temperature light sources.

environmental statement & warranty

Bestuhl does not hold any formal environmental accreditations for Albion systems furniture framework, however, the management team takes the company's social and environmental responsibilities very seriously. It is manufactured in a newly constructed purpose built facility, which houses some of the most up to date, energy efficient fabrication equipment available. This includes online powder coating with closed loop powder recovery, robotic welding, and automated all electric, 'lights out' laser and turret punching profiling equipment. The factory subscribes to the principles of lean manufacturing, and as a consequence produces very low quantities of waste materials. Any waste materials that are produced including steel, aluminium, timber, cardboard and all plastic packaging are sent for recycling. The management team believe that our impact upon the environment is minimal, and would invite anyone to come and inspect our operation. Please study the chart below detailing our recycled framework content figures:

MATERIAL	RECYCLED CONTENT %	POST CONSUMER CONTENT %	POST INDUSTRIAL %	CAN BE RECYCLED (Y/N)
STEEL TUBE	55%	100%	100%	YES
STEEL SHEET	55%	100%	100%	YES
PLASTIC PARTS	10%	90%	90%	YES
CARDBOARD PACKAGING	80%	100%	100%	YES
PLASTIC PACKAGING	50%	100%	100%	YES
PALLETS	100%	100%	100%	YES

Albion table tops factory has been audited and found to meet the requirements of standard(s) FSC-STD-50-001 (Version 1.2) EN and FSC-STD-40-004 (Version 2.1) EN for FSC Chain of Custody Certification (Certificate start date: 19 March 2014 / Certificate expiry date: 18 March 2019)

Bestuhl UK Ltd offers a **fifteen year warranty** from the date of delivery on the Albion range, unless otherwise stated. This applies only if products have been used within and by standard office conditions. Wear and tear must be expected from normal use and are not covered by the warranty.

Bestuhl UK Ltd reserves the right to refuse replacement or repair if we feel that the product has been abused or has been accidentally damaged by another party. Bestuhl also reserves the right to attempt to repair any damaged or faulty products before a decision is made to replace them. In this case, we shall not be liable for any loss occurred by the distributor or customer during this period. Bestuhl will not be liable whatsoever for any consequential damage, loss or other expenses whether arising out of contact, negligence or otherwise. Any alterations to our products in any manner will automatically nullify any guarantees offered by Bestuhl UK Ltd.
