screens

# NÓMAD

An Icon innovation, this freestanding desktop screen requires absolutely no fixtures or fittings and offers complete flexibility. Nomad is a statement screen that is ready to roam.

Nomad is a freestanding desktop screen. Its unique design is not only beautiful, but practical too, providing a stable but lightweight, flexible screen solution that can work on any desk, anywhere.

Elegantly simple – it requires no fixing, no drilling, no measuring and no brackets.

Perfect for hot-desking, mobile working, or creating privacy without making any permanent changes to the desk itself; just position it wherever you want it and you are ready to work.
