

# happy

**From the moment you lay eyes on Happy, it'll lift your mood. In fact, the chair itself looks like a big smile, creating a wonderfully comfortable and enjoyable place to recline.**

Happy is one of our most popular breakout chair designs with its sweeping, organic form. It's mostly used in foyer and breakout areas, but it will fit in pretty much anywhere. You can opt for a polished aluminium four-star swivel base or sled base, and a glorious array of upholstery fabrics. In short, you'll feel happier with Happy.
