

PLANTER STORAGE UNIT

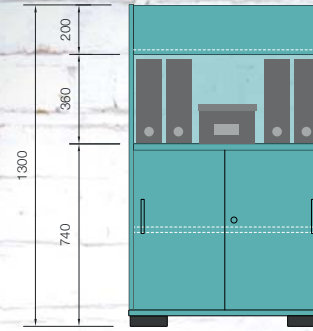

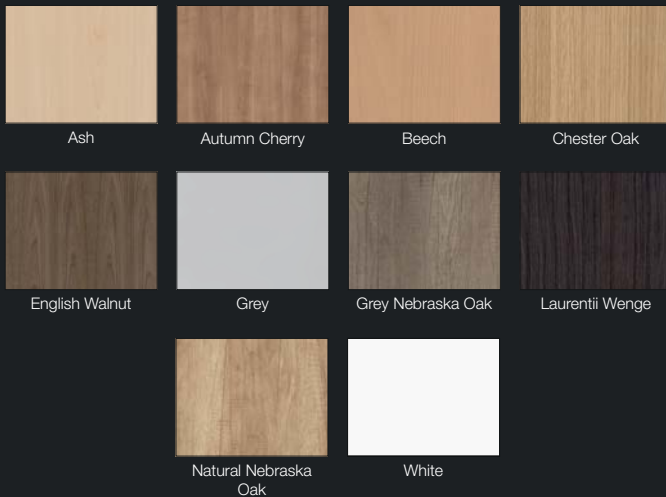

PLANTER STORAGE UNIT

We all have an instinctive desire to be connected with nature and it is important this desire is represented within the areas we live and work in, designing spaces that enhance our health, well being and productivity.

Our planter unit provides the perfect solution to workplaces, blending seamlessly with the surroundings but offering the additional simplicity of introducing nature to the environment.

DUAL BOARD MFC FINISHES

Within each unit you have the use of a secure storage area concealed by lockable sliding doors, an open fronted display shelf and a recessed planter bed within the top section of the storage unit.

Our carefully chosen partner, *Plant Designs*, have a wide variety of greenery available to be planted into the top section, producing a unit that is sure to cultivate the setting and those using the space.

N.B. This unit is supplied without plants and plant tray.
